OUR PRODUCTS

wiSHE

wiSHE is an integrated web-application that helps companies run safer by mitigating workplace risks efficiently. wiSHE brings pro-active safety culture within the organisations and helps in meeting regulatory compliance with ease. It helps in unlocking the potential of the safety data by providing insights into risk management.

EntRePlan

EntRePlan is web-based integrated ERP for the Small and Medium enterprises. Empower your business by streamlining critical operations like sales, purchase, production, quality, inventory, finance, human resources, maintenance, compliance etc. With built-in dashboards and analytics EntRePlan is a one stop solution.

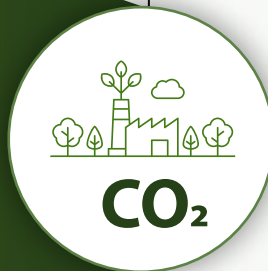

Aviator SMS

AviatorSMS is a comprehensive and integrated web-application that complies with all four pillars of ICAO viz. Policy and Objectives, Risk Management, Safety Assurance and Safety Promotion. It is a powerful tool that enables Airports, Airlines, MROs to meet specific regulatory requirements as specified by ICAO/ACI/IATA or the State.

Aviator CO2

Airport Carbon Accreditation encourages and enables airports to implement best practices in carbon management and achieve emissions reductions. AviatorCO2 is an online application to help airport achieve carbon neutrality.

The application supports ACI 6 levels of certification process - namely mapping, reduction, optimisation, neutrality, transformation and transition. A number of reports and dashboards are available for the airport to make informed decisions on reducing their carbon footprint by identifying areas where they could gain substantial savings.
